6 Using problem analysis to support decisions and planning in complex processes

Chris Hallgren

February 1997 **ACM SIGDOC Asterisk Journal of Computer Documentation**, Volume 21
Issue 1

Publisher: ACM Press

Full text available:  [pdf\(939.10 KB\)](#) Additional Information: [full citation](#), [abstract](#), [index terms](#)

This paper presents theoretical and practical arguments for a new direction in task-based, computer documentation. It argues that common tasks that we document for users have grown in complexity to include many stages where decisions affect the outcome. The term "complex problem" is used to describe this scenario, in that users struggle to understand the obstacles to completion of a task, and the criteria for success at each stage. The design of information for "complex problems" is seen as need ...

7 Seamless integration of client server applications - conclusion or how many SIGUCCS papers can you get from one project?

Jerry Martin

October 1998 **Proceedings of the 26th annual ACM SIGUCCS conference on User services**

Publisher: ACM Press

Full text available:  [pdf\(284.66 KB\)](#) Additional Information: [full citation](#), [index terms](#)

8 Experience with transactions in QuickSilver

Frank Schmuck, Jim Wylie

September 1991 **ACM SIGOPS Operating Systems Review , Proceedings of the thirteenth ACM symposium on Operating systems principles SOSP '91**, Volume 25 Issue 5

Publisher: ACM Press

Full text available:  [pdf\(1.66 MB\)](#) Additional Information: [full citation](#), [abstract](#), [references](#), [citations](#), [index terms](#)

All programs in the QuickSilver distributed system behave atomically with respect to their updates to permanent data. Operating system support for *transactions* provides the framework required to support this, as well as a mechanism that unifies reclamation of resources after failures or normal process termination. This paper evaluates the use of transactions for these purposes in a general purpose operating system and presents some of the lessons learned from our experience with a complete ...

9 User-centered interdisciplinary design of wearable computers

Asim Smailagic, Dan Siewiorek

July 1999 **ACM SIGMOBILE Mobile Computing and Communications Review**, Volume 3
Issue 3

Publisher: ACM Press

Full text available:  [pdf\(2.36 MB\)](#) Additional Information: [full citation](#), [citations](#), [index terms](#)

A TCP/IP network facsimile system built from publicly available software

Chane Fullmer, Brent Auernheimer, William L. Morris

April 1992 **Proceedings of the 1992 ACM annual conference on Communications**

Publisher: ACM Press

Full text available:  pdf(646.40 KB) Additional Information: [full citation](#), [abstract](#), [references](#), [index terms](#)

A network desktop facsimile system was developed from inexpensive hardware and publicly available software. This system allows users on a TCP/IP network to develop documents and have them FAXed without printing out the document and using a manual FAX machine. The desktop facsimile system also receives FAXes. Schemes for electronic routing of incoming FAXes are outlined. The system is written in C and uses TCP/IP network protocols. Existing standards, system development and integration of pu ...

11 Managing service level agreements

Nathan J. Muller

May 1999 **International Journal of Network Management**, Volume 9 Issue 3

Publisher: John Wiley & Sons, Inc.

Full text available:  pdf(291.12 KB) Additional Information: [full citation](#), [abstract](#), [index terms](#)

Service level agreements are increasingly being used in enterprise networks and are contracts that specify the performance parameters within which a network service is provided. In this article their application, preparation, and effects on IT departments are considered. Copyright © 1999 John Wiley & Sons, Ltd.

12 Papers: MoCCA: a mobile communication and computing architecture

Asim Smailagic, Dan Siewiorek, Bob Iannucci, Anton Dahbura, Len Bass

October 1999 **ACM SIGMOBILE Mobile Computing and Communications Review**, Volume 3 Issue 4

Publisher: ACM Press

Full text available:  pdf(1.27 MB) Additional Information: [full citation](#), [abstract](#), [references](#)

The Mobile Communication and Computing Architecture (MoCCA) was built to support field-based teams of service engineers to collaborate autonomously and perform their activities in an on-the-move working environment. There is no physical contact among the members of a group of geographically distributed mobile field service engineers (FSEs) to share/build corporate memory. The challenge was to provide a system that allowed the FSEs to access information and advice from other FSEs while on custome ...

13 Building an ISP Using Linux and an Intranet

Eric Harlow

September 1997 **Linux Journal**

Publisher: Specialized Systems Consultants, Inc.

Full text available:  html(18.66 KB) Additional Information: [full citation](#), [index terms](#)

14 Copyright in shareware software distributed on the Internet—the Trumpet Winsock case

Cristina Cifuentes, Anne Fitzgerald

May 1997 **Proceedings of the 19th international conference on Software engineering**

Publisher: ACM Press

Full text available:  pdf(1.29 MB) Additional Information: [full citation](#), [references](#), [index terms](#)

Keywords: Internet service provider, copyright, distribution, intellectual property, shareware

- 15 [A systematic approach to creating and maintaining software documentation](#) 
Allison L. Powell, James C. French, John C. Knight
February 1996 **Proceedings of the 1996 ACM symposium on Applied Computing**
Publisher: ACM Press

Keywords: documentation, information retrieval, software engineering

- 16 [Speech and audio in window systems: when will they happen?](#) 
B. Arons, C. Schmandt, M. Hawley, H. Ludwig, P. Zellweger
July 1989 **ACM SIGGRAPH Computer Graphics , ACM SIGGRAPH 89 Panel**
Proceedings SIGGRAPH '89, Volume 23 Issue 5
Publisher: ACM Press
Full text available:  [pdf\(2.78 MB\)](#) Additional Information: [full citation](#), [abstract](#), [index terms](#)

Good afternoon. Boy, I can't see anything out there. I assume you all can see me -- that's why these lights are here. My name is Chris Schmandt from the Media Lab at MIT. I'm co-chairing this panel with Barry Arons, who is sitting over here. It's actually quite a pleasure to co-chair this panel with Barry. We've been working together off and on for more years than I care to remember.

This panel has a long ridiculous name. Basically it's about audio and window systems and work ...

- 17 [Linux as a Telephony Platform](#) 
David Sugar
November 1997 **Linux Journal**
Publisher: Specialized Systems Consultants, Inc.
Full text available:  [html\(27.68 KB\)](#) Additional Information: [full citation](#), [index terms](#)

- 18 [LJ Interviews Robert Dinse of Eskimo North](#) 
Marjorie Richardson
October 1998 **Linux Journal**
Publisher: Specialized Systems Consultants, Inc.
Full text available:  [html\(22.64 KB\)](#) Additional Information: [full citation](#), [abstract](#), [index terms](#)

Some background on the ISP and its switch to the Linux platform

- 19 [Configuring designs for reuse](#) 
Anssi Karhinen, Alexander Ran, Tapio Tallgren
May 1997 **ACM SIGSOFT Software Engineering Notes , Proceedings of the 1997 symposium on Software reusability SSR '97**, Volume 22 Issue 3
Publisher: ACM Press
Full text available:  [pdf\(1.33 MB\)](#) Additional Information: [full citation](#), [references](#), [index terms](#)

Keywords: configuration of designs, design and implementation reuse, product families

20 [Configuring designs for reuse](#)

Anssi Karhinen, Alexander Ran, Tapio Tallgren

May 1997 **Proceedings of the 19th international conference on Software engineering****Publisher:** ACM PressFull text available:  pdf (1.34 MB)Additional Information: [full citation](#), [references](#), [citations](#), [index terms](#)**Keywords:** configuration of designs, design and implementation reuse, product families
